GHASTLY SIGHTS IN THE HORROR MINE

Greet the Crews of Rescuers as They Work to Recover the Dead Bodies.

BLUEFIELD, W. Va., Jan. 14.—A total of thirty-five bodies have been taken from the ill-fated mine at Lick Branch. Three rescue crews of forty men each, led by State Mine Inspectors Grady, Nicholson and Warner, are at work. The men in these crews report the most ghastly sights within the torn and fire-swept corridors and workings of the mine, where bodies are found mangled and mutilated beyond identification.

It is difficult, they declare, to distinguish between white and black because they are so frightfully burned. Some bodies taken from the mines resemble charred masses of flesh more than human beings. From some bodies legs are gone; from others the arms. One was headless.

The following is a list of the known dead:

White—Everett Phillips, George Peters, A. R. Miller, Joseph Jones, Charles Phillips, David Surratt, Riley Surratt, Ed Collins, James A. Tres, Robert Wythe, Daniel Arrington, Henry Bowles.

Colored—Luther Bouldin, John Hunter, J. H. Cobbs, George Enseey, Frank Harston, Henry Lee, Anthony Johnson, Lemuel Dean and a man known as "Tattoo."

Nine unidentified bodies and two others have been brought out, but have not yet been placed in the morgue.

Experienced mine men are authority for the statement that this is the first case on record where two explosions occurred in the same mine in such a short space of time and are unable to explain its cause. Some of them point to the fact that the thermometer fell 19 degrees within several hours on the morning of the disaster, and hold that such rapid changes in the weather have considerable influence on the conditions that produce mine disasters.

ROANOKE, Va., Jan. 14.—The Norfolk and Western railroad expects to run a special train to convey dead bodies from Lick Branch to Roanoke. The remains of the mine victims will be forwarded from Roanoke to their proper destination.

ORLANDO BOY WINS A VALUABLE PRIZE

ORLANDO, Jan. 14.—James Platt, a young son of Conductor J. M. Platt of this city, is the champion paper seller of the United States. That is to say, he has just been notified that he drew the prize of a pony and cart offered by The Saturday Evening Post to the newsboy who made the largest increase for a certain number of months, considering the field he had to work in, the size of the town, promptness in sending his orders, etc. James had the largest general average of "points" of any boy in the United States. He can take $150 in cash instead of the pony and cart, and this he has decided to do. In addition to this prize, he has also won another special cash prize of $35 from The Saturday Evening Post on another contest. This is a fine record for a boy down in South Florida, and is a forecast that some day James will be a second Horace Greeley or William Hearst. He sells several hundred copies every week.

Some article that is simply "in the way" at your house might, if advertised, be sold to someone who is anxiously looking for it.

ALABAMA PISTOL TOTING LAW VALID

MONTGOMERY, Ala., Jan. 14.—The Alabama Supreme Court yesterday held the pistol law to be valid. The law provides that no one shall own or carry a pistol or gun less than twenty-four inches in length; also that pistol supplies for guns of less size cannot be sold.

AUNT CARRIE WIELDS HATCHET IN ENGLAND

NEW CASTLE-UPON-TYNE, England, Jan. 14.—Carrie Nation, the American anti-saloon crusader, was arrested here today while engaged in a raid on a saloon.

For City Marshal.

I respectfully announce myself a candidate for the office of City Marshal, to be voted for at the election on April 13, 1909. If elected I will faithfully discharge the duties of the office without fear or favor. I respectfully solicit the votes of all, irrespective of party affiliation.

CHAS. M. DELL.

Claims Votes Were Not Counted for Right Man

SPRINGFIELD, Ill., Jan. 14.—The legislative deadlock was broken yesterday when the Senate concluded to sit with the House for the canvass of election returns.

Inaccuracies in all but nine of the 102 counties in Illinois in counting the vote for Governor at the November elections are charged in the petition for a recount made to the General Assembly by Adlai E. Stevenson, Democratic candidate for Governor. An approximate total of 50,000 votes more than are shown by the election returns is claimed by Mr. Stevenson in his petition to the General Assembly yesterday.

In the ninety-three counties cited by the petition as showing irregularities sixty-five are alleged to have made wrong returns by the alleged simple means of counting for Deneen votes which were cast for Stevenson. In twenty-eight others it is charged, in addition, either that persons, not naturalized or persons not residents of the county, or both, voted for Gov. Charles S. Deneen, and in each of the twenty-eight counties discounting of votes properly cast is also charged.

The county which appears on the petition to have countenanced the greatest amount of illegality of all sorts is Cook, (Chicago), although extensive frauds also are charged in other counties.

BACON ATTACKED ADMINISTRATION

HE CLAIMS THAT ANY PUBLIC DOCUMENT

Can be Had From Cabinet Secretaries.—Roosevelt's Action in Steel Merger Caused Measure.

WASHINGTON, Jan. 14.—Senator Bacon of Georgia today introduced a resolution declaring that "Any and every public document, paper or record, or copy thereof, on the files of any department of the government relating to any subject whatever over which congress has any grant of power, jurisdiction or control under the constitution and any information relative thereto within the possesion of the officers of the department, is subject to the call or inspection of the senate for its use in the exercise of its constitutional powers and jurisdiction."

Mr. Bacon declared that it was of especial importance because of the recent message of the President in which he stated that he had directed the attorney-general not to give information as to what he had done in the bringing of a suit against the United States Steel Corporation for its absorption of the Tennessee Coal and Iron Company.

Complaining that the language of the President in his steel corporation message had not been "distinguished by its extreme courtesy," Mr. Bacon proceeded:

"This is the first time that the denial of the right of the senate has ever been made in such unlimited and emphatic language as that now employed by the President."

Senator Hale expressed the opinion that the President had not taken a square ground upon the right of congress to direct the transmission of papers by heads of departments.

Mr. Bacon said the President did not stop at questioning the senate's reasons for its inquiries but that he had said the heads of the executive departments were subject to the constitution, to the laws passed by congress and to the direction of the President of the United States "and to no other direction, whatever." "That," said Mr. Bacon, "is as broad as human language can make it."

Senator Hopkins challanged Mr. Bacon's contention on the ground that not congress, but the senate alone recently asked for the information regarding the action of the attorney-general and Mr. Lodge asked whether congress in the judgment of the senator from Georgia had a right to demand papers fromm the State department.

"As an absolute right," Mr. Bacon replied, "Yes. But of course, while congress has the right it exercises its discretion in such matters."

Mr. Bacon said that the President had but one royal power and that was the power of pardon. All other powers he said, he exercised in conjunction with Congress.

Senator Fulton declared that while the congress has the right to command heads of departments, it has no power to enforce its commands. He said "we should provide a way to enforce our power to command."

Mr. Bacon did not agree with the senator from Oregon that there was no way to enforce this power. He suggested that the power of congress to withhold salaries was one way to accomplish this end, but said because the power to enforce may be difficult it does not affect the power.

Senator Teller asked that Mr. Bacon's resolution be allowed to lie on the table so that it might be discussed later. He referred to a statement by Mr. Hale that cabinet officers are not mere clerks and said that depends upon who is at the head of the government.

"It also depends upon the kind of men the President has under him," said Senator Tillman.

"I do not think any self-respecting secretary would take orders from the President," said Mr. Teller.

The resolution was laid aside for the day.

PROHI. BILL IS NOW UP TO PATTERSON

He's Expected to Veto It, But Tennessee Legislature is "State-Wide."

NASHVILLE, Tenn., Jan. 14.—The bill to prohibit the sale of intoxicating liquors in Tennessee passed the lower House of the General Assembly this afternoon. The vote was 62 to 56. Fifty votes is a majority. Twenty-two Republicans voted for and one against the measure.

The measure passed is the one favorably acted on yesterday by the Senate and now goes to Governor Patterson. He is expected to veto it, but under the constitution his veto only operates as a suggestion, not as a stay and a bare majority may pass the bill over the executive's unfavorable action. The Governor is allowed to hold a bill five days. If at the expiration of this time it has not been returned to the Assembly it becomes a law without his signature.

The bill provides that prohibition shall become effective July 1, 1909. The battle attending the passage of the prohibition bill was probably the fiercest ever known in the House of Representatives. For almost five hours it was waged, the local option, or administration forces, contesting every inch of the ground. Amendment after amendment was presented and promptly voted down by about the same majority as that given the bill on final passage. A great outpour of oratory came from both sides.

Throughout the discussion the galleries were packed and several times the Speaker, at the request of local optionists, asked the sergeant-at-arms to exclude visitors from the floor of the House. When the final vote was announced the cheers from the galleries were deafening. The demonstration on the floor and in the galleries lasted several minutes. Last night the State-widers were jubilantly asserting that the bill will be passed over the Governor's veto by about the same vote originally received in each house.

A bill making "bucketshops" illegal was introduced by Mr. Carson.

WAS HAT PIN USED TO SLAY BRIDE-GROOM?

ROANOKE, Va., Jan. 14.—Relatives of William A. Andrew, the young bridegroom whose dead body was found swinging from a tree near town last Sunday after he had been missing a week, believe he was murdered.

At the grave in Bedford county Tuesday interment was stopped by an uncle of the dead man, who demanded an examination of the body. It is said Dr. Kabler found several small holes in the breast, one of them leading to the heart. The wounds were believed to have been made with a hat pin.

Bound Over to Circuit Court.

Deputy Sheriff Roland of Island Grove brought in on Thursday night Richard Nelson, John Ramsey and Ed Lee, all negroes, charged with the robbery of Price's store at Island Grove on the night of the 8th inst.

The message flashed from the station of the United Wireless Telegraph Company at Palmetto Beach Tuesday afternoon was the first to be transmitted by wireless methods from Tampa to the outside world.

MORE OF THE RIDERS WILL SOON BE TRIED

UNION CITY, Tenn., Jan. 14.—It is probable that another night rider trial will begin next Monday. Agreement was yesterday made between Attorney General Caldwell and attorneys for the defense, to take the matter up then, and it is almost certain that one of the conspiracy cases will be called on that day.

An agreement also has been reached wherein nine men indicted for other night riding offenses than murder will be released under bond. This leaves eighteen under arrest who have been indicted for the murder of Capt. Rankin who have not been tried.

The cost of building the 110 miles of road Hamilton county has contracted for will be about $500 a mile, according to the clerk of the circuit court of that county, and the contractors guarantee the roads to be free from bogs or ruts for five years, to make which guarantee good they give bond in the sum of $100,000. Putnam county, it is said, expects her new roads to cost her only $600 a mile. Yet there are some persons who insist that every mile of good road costs at least $1,000.—Times-Union.

Appeal In Case of Labor Leaders to Be Pressed

WASHINGTON, D. C., Jan. 14.—The appeal from the recent decision of Judge Wright of the District of Columbia Supreme Court in sentencing Samuel Gompers, John Mitchell and Frank Morrison to jail for contempt will be vigorously pressed and a call for funds for that purpose will shortly be issued by the American Federation of Labor.

The action was decided upon at a conference here today between the executive council of the federation now in session here and former Judge Alton B. Parker of New York, chief counsel for the federation officials. The latter, assisted by local counsel, will immediately begin the preparation of the appeal.

Much of the time of today's session was devoted to the consideration of proposed specific legislation that might be presented to Congress to remedy the conditions brought about by the injunction and contempt proceedings as well as the application of the Sherman anti-trust act to labor organizations.

Promises of aid and support in the appeal in the contempt case were given to the council in letters and telegrams received today from labor organizations all over

PAPER FACTORY SITE HAS BEEN SELECTED

LOCATED NORTH OF TOWN BETWEEN A. C. L. and T. & J. R'YS.

Question of Water Will Be An Item, as Estimate Places It at Million and Half Gallons.

The site for the proposed paper plant to be erected here by the C. W. Chase interests has been selected, and while nothing is being done in a rushing way they are gradually forging ahead and making all necessary arrangements to finally perfect the plant.

The site was located by two Boston engineering experts who have been here for this special business, and who have been all over the ground around here looking for the best location.

It is estimated that it will take a million and a half gallons of water daily to supply the plant alone, which will tax at the very least four wells.

There is no longer any question about the factory, for the matter has been quietly experimented with until it has been fully demonstrated just what can be produced, and the work along this line has even been so complete that they are enabled to tell just about what every grade of paper to be manufactured will cost from the time the tree is cut until the manufactured article of paper ready for shipment has been produced.

This undertaking has been no small matter, and already several thousand dollars have been spent in the experimenting stage. The next and most important move is to get the machinery, and it is expected that when the stock is finally offered outside help will be forthcoming at a rapid rate.

Not only will this factory prove an enormous enterprise for Gainesville, but it will be a tremendous big thing for the State. A large force of workmen will be engaged here by this enterprise.

The mere fact that the Chase interests are behind this gigantic manufacturing enterprise is proof positive that we will soon see the factory commenced.

"Charley's Aunt" Tonight.

In speaking of amateur performances to Mr. Hudgins, the writer of this column learned some interesting facts. "Let me think," said he. "My first amateur performance in this town was in 1884, 'Woodcocks Little Game,' given for the benefit of Mrs. French, who at that time taught music in the old E. F. S. The late Gen. Wagner, then commandant, gave us some valuable aid and it makes me feel quite old to have one of his daughters, Miss Gertrude, in the present caste of 'Charley's Aunt'. The play was under the direction of Mr. Roth Reynolds, who was one of the hardest workers for the success of that, and all subsequent productions we gave, up to his removal from the State. The caste was, as I now remember, in the hands of the following: Miss Emma Finley, Miss Mamie Wallace, Miss Lela Cater, Mr. Elam Evans, Mr. Jos. Waugh, Mr. W. J. Denby and myself. From that time up to the present there have been but few years in which I have not appeared on the local stage in some amateur play. While on the road during the regular season, I made Gainesville my home every vacation. Those were busy summers, for we always gave from three to four performances before my return to New York for rehearsals. To enumerate the different plays and the names of all who took part in them would require more than this column could contain. Suffice it to say that some of our most prominent citizens have aided us more than once. In one production alone, 'Ours,' a military play, given for the Gainesville Guards in 1885, appeared the names of Col. Cater, Mr. and Mrs. James Bell, T. J. Twomey and others I cannot now recall.

"Our dramatic club, like our baseball club, was known all over the State, and we were constantly receiving invitations to visit other cities. We traveled quite a bit and met with success, and kind treatment. I shall always remember Ocala as being one of our best towns, always a big house and the heartiest welcome.

"To come to the present: I am busy with 'Charley's Aunt,' given tonight for a cause everyone should be interested in. I have one of the best castes I have ever worked with and all we need is an audience of our appreciative friends to make 'Charley's Aunt' the best comedy I have yet put on. Don't stay at home, the price is small, the cause worthy and our little band of earnest players will do all in their power to please you."

Electric Theatre.

Pleasing, entertaining, instructive and amusing are the moving pictures shown this week at the Electric Theatre. Hair-raising Wild Western dramas, exquisite scenery taken in the Alps, Swiss villages or Venetian canals, with old English home happenings, Scottish highlands or the green hills of Ireland, interspersed with Shakesperian plays, Crusaders conflicts and burlesque every-day American doings, give all a chance to view what they take the greatest interest in.

Tonight the exhibition will be most excellent and the pictures should not be overlooked by anyone.

A Religious Author's Statement.

PEARCE—BOWERS.

Prominent Young Gainesville People Join Future Destinies.

Dr. Harry L. Pearce and Miss Lyde Bowers were happily married at the home of the bride's parents, Mr. and Mrs. G. M. D. Bowers, 407 East Liberty street, Thursday evening at 7 o'clock, Dr. J. H. Parker performing the ceremony.

The affair was a very quiet one and only the immediate members of the family of the contracting parties were present, with the exception of the young man's business partner, Dr. J. H. Alderman.

Dr. Pearce is a prominent young dentist of the city and was raised here. He only a few years since graduated with honors and located here to follow his chosen profession.

The bride has been a resident of Gainesville for the past few years, removing here with her family from Bartow, and she has made many friends during her residence in the city.

Following the ceremony a dainty and elegant dinner was served at the home of Mr. and Mrs. B. R. Colson, on East Alachua avenue.

The couple received many useful and handsome presents, and The Sun joins their host of friends in wishing them a happy and pleasant wedded life.

SWEARINGEN SIGNS LEASE FOR HIS ROAD

WILL HAVE LARGEST SAWMILL IN THIS SECTION.

New Road He Will Build Will Give Him Ample Facilities to Keep Supplied With Logs.

T. J. Swearingen, the sawmill man of Kanapaha, has just signed up a lease from the Seaboard giving him sufficient rails to lay several miles of track to haul logs to his large milling plant at this place.

Owing to several delays the machinery has not all been installed at his new plant, and he was waiting until he can secure the additional rails to build a road and extend it into the heart of his timber before ordering the remainder of the machinery.

By securing this new rail he will be enabled to keep his mill in operation to its full capacity. This is the largest of any mill in this section.

He has recently purchased an engine and will keep this running on the new road he will build, which will touch a section heavily timbered, and may eventually be used for other purposes in connection with the mill.

He expects to have the mill running at its full capacity within the next thirty days. Workmen are now placing the machinery as fast as it is received and a force of hands will at once be put to work on the roadway, the grading having already been done on some parts.

CATARRH MUST GO

And Hawking, Spitting, Snuffles Must Go.

Hyomei (pronounced High-o-me) will give the sufferer from catarrh relief in five minutes.

It is such a remarkable cure, and so positive in its action, that J. W. McCollum & Co. go so far as to guarantee it to cure catarrh or money back.

A complete outfit, which consists of a hard rubber pocket inhaler, a bottle of Hyomei, and a unique dropper for filling the inhaler, only costs one dollar, and if an extra bottle is afterwards needed the price is only 50 cents.

Hyomei is a healing, antiseptic balsam, taken from the mighty eucalyptus trees in the health-giving forests of Australia, where disease of the respiratory tract are unknown.

All the sufferer has to do is to inhale the antiseptic air of Hyomei over the inflamed parts where the germs are entrenched, three or four times a day.

It cures coughs, colds, asthma, hay fever and croup without stomach dosing.

NEW S. A. L. DEPOT FOR PASSENGERS

WORK TO BE COMMENCED WITHIN NEXT TWO WEEKS.

Old Depot to Be Temporarily Repaired to Accommodate Public Until Completion of the New One.

By the tearing away of the corner of the old Seaboard depot on Wednesday night the citizens of Gainesville and the traveling public will soon have a new modern waiting station built in its stead.

Before the work of clearing up the wreck had been fairly started Agent Bullard was in receipt of the above information, which will be pleasing to the large number that travel over this road.

While no specific time has been set for the work to commence on the proposed new building the agent said that work would start within the next two weeks, and the new building would prove a blessing to the traveling people, as it would be complete and modern in all its appointments.

Fortunately for both Clerks Hall and Harvard, they had left the old building just in time to escape death, and were out of the offices when the accident occurred.

They were not due to leave the office until 6:30 p. m., but had left at just 6:25, and escaped by only a few minutes, being on the outside platform when the car struck the building.

Engineer George was in charge of the engine that did the demolishing stunt, and it was a complete job so far as the east end of the building was concerned. He had a train of twenty-five loaded cars and was "shooting" them in on the siding to return to Dayville for a lot of perishable vegetables and it was one of this lumber, loaded with lumber, that went through three rooms of the main building, destroying the large block-wall that had been erected to stop the cars before they reached the depot.

The car demolished the stopping block, tore away the east side platform, and went through the white sitting room, the file and stationery room, and wound up within about two feet of Agent Bullard's desk in the offices, carrying the petition, flooring, brick chimney and all to the fourth petition before it was finally checked in its progress. Had the accident happened at a time when the offices were full of employes all would have been killed or seriously injured.

The track upon which this car entered had not been used for the past six months or more, and it is a mystery just how it was switched on, as the engineer was of the impression that he was on the north sidetrack at the time of the occurrence and was backing up at a rapid rate at the time the single car went into this track and did the damage.

Temporary repairs are now being made at the building, which will be used until the new station can be built.

The Sleeping Sickness.

The terrible sleeping sickness of tropical Africa is discussed at length in an article in Popular Mechanics. The disease, which long baffled scientists, is spread by the tsetse fly, a blood-sucking, day flying insect. On the approach of either man or animal at a river crossing in the densest forest the victim is soon scented out by the fly, if there is one in the vicinity, and it, either silently or with a peevish buzz, it makes straight for the most accessible spot and gives its stab. The usual course of the disease is over four to eight months. At the outset there are headache, a feverish condition, lassitude and a correspondingly disinclination to work. The facial aspect changes, and a previously happy and intelligent looking negro becomes stupid dull, heavy and apathetic. Later, tremor in the tongue develops, speech is uncertain, and mumbling, shuffling and progressive weakness, drowsiness and oblivion to his surroundings afflict the sufferer. The last stage is marked by extreme emaciation and a coma deepening into death.

A Wedding Decoration.

Whether it was a mistake or a joke or simply an example of bad taste is a question that is still puzzling most of the passengers. But no matter about that. It certainly was a floral masterpiece. Full four feet it stood from the ground, in the form of a cross. Roses white and roses red composed the body of the cross, and dainty white blossoms and green leaves formed the trimmings. In the center the word "Peace" was spelled out in rosebud.

Everybody in the car admired the offering, and when the boy set it down on the floor all leaned forward to examine it more closely. At length one old gentleman stood up and readjusted his glasses in order to get a better look at it.

"That is a mighty pretty posy you've got there," he said. "Who, may I ask, is dead?"

The boy giggled.

"Nobody 't I know of," he said. "This ain't for a funeral; it's for a wedding."

The old gentleman sat down heavily.

"Good Lord!" he said. "What idiot ever ordered 'Peace' inscribed on a wedding decoration?"

The rest of the passengers smiled, and many of them, being married, wondered as well, but nobody ventured an explanation.—New York Times.

Disappearing Home Life.

The flat dweller ought not to keep a dog, prefers not to keep a cat, cannot have a garden, has no chance of keeping house, has no possible place for memories and, most emphatic of all, has no use or accommodation for babies. GOOD PROPOSITION FOR GAINESVILLE

AFFORDING SUPPLY OF WATER IN CASE OF FIRE.

Diamond Ice Factory Offers to Furnish the Water in Exchange for Extension of Water Main.

Gainesville, Fla., Jan. 11, 1909.

To the Honorable City Council,
Gainesville, Fla.

Gentlemen: As the council is doubtless aware, we are unable to pump sufficient water for adequate fire protection, when there is a large fire, and with the idea of increasing our pumping capacity upon such occasions I have talked over the situation with Mr. R. B. Livingston, manager of the Diamond Ice Co., and he has agreed that in consideration of the city's running a six-inch fire main from the foot of West Main street west along Depot street, and then south to a point just below their factory, a distance of 1,500 feet, and place the necessary hydrants to give them fire protection in case their buildings catch fire, that they will allow the city to connect their mains to the ice factory pump, and that when there occurs a fire in the city he will shut down his plant temporarily and give absolutely free their entire pumpage to the city during the continuance of the fire. All that he asks is that the city furnish the necessary valves, pipe, etc., and make the connection to the pump.

I have looked carefully into the matter, and as Superintendent of the city plant I most earnestly recommend that the proposition be accepted.

As a matter of information, I will state that the maximum capacity of the fire pump is about 700 gallons per minute; from this must be deducted about 200 gallons per minute for leaky fixtures and legitimate use, which amount is taken from the mains, whether there is a fire or not. The pump at the plant of the Diamond Ice Co. can and will handle safely 400 gallons per minute, which amount, if added to our available pumpage for fires, would practically double our present supply on such occasions.

The council, as well as the citizens generally, are acquainted with the quality of the water pumped by the Diamond Ice Co., it being pumped from their deep well, and being about the same kind of water as that pumped from the city's deep well, water from each well having been analyzed and found to be pure and wholesome.

In addition to the advantages already mentioned, the city would derive the regular fire tax for all that property which would be brought within the fire limits, and which at present bears no such tax.

To make this extension and connection will cost about $1,100.

Respectfully submitted,
B. F. MILLER,
Superintendent.

ALCOHOL IS A PRESERVATIVE.

Alcohol is recognized the world over as the proper, most efficient and wholesome preserver of medicinal compounds, and while some journalists try to alarm the world by the cry that patent "medicines contain more alcohol than beer," they neglect to state that proprietary medicines are taken in doses from a teaspoonful to a tablespoonful, while beer is a beverage that is consumed in quantities from a glass to several quarts a day.

Lydia E. Pinkham's Vegetable Compound contains only 18 per cent alcohol, simply enough to preserve the roots and herbs from which it is made, and may be relied upon by every woman in the land as a reliable, honest and sure remedy for the ills peculiar to her sex.

TELEPHONE TALKS

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems, operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

NEWS FROM ALL PARTS OF FLORIDA

The Order of Railway Conductors held their third annual banquet at Lakeland last Friday.

The Hibbs Fish Company of St. Petersburg shipped their first carload of mullet on Saturday for the open season. It consisted of 23,000 pounds and was consigned to various points North.

The third annual meeting of the stockholders of the Florida Life Insurance Company was held in Jacksonville Tuesday. The meeting was well attended and splendid reports received.

A movement has been started in St. Petersburg to have a big Lincoln birthday celebration in that city, at which an endeavor will be made to secure William Jennings Bryan as the orator of the occasion.

Lakeland was visited by a damaging fire Tuesday about noon which will result in several thousand dollars' loss. The building in which the fire originated was built of stone and the fire did not get beyond the control of the fire department.

Four thousand acres of fine timber land has been purchased by D. L. Thorpe of Townsend, Ga., near Boyett, close to Tampa, and there Mr. Thorpe intends establishing a big turpentine still. He will spend $25,000 within the next few months in getting the tract into shape for extensive naval stores operations.

The Meanest Man in Town

Australia's First Theater.

The first recorded production of a play in Australia took place in June of the year 1789. It was called "The Recruiting Officer." The proceeds of the first pay night (some £20) went to the family of a man who had been drowned. In January, 1796, a rough and ready playhouse was opened, and the public had to pay a shilling a head for admission. The payments were made in kind, wheat, flour or rum taking the place of the usual currency.—London Standard.

LEFT ON HER DOORSTEP FOR THIS MOTHER

Mrs. A. G. Tuson, of Livermore, Cal., writes: "I picked up from my doorstep one day a little book in which I soon became very much interested. My little girl of five years of age had been troubled for a long time with loss of appetite, extreme nervousness and undue fatigue. She was all rundown and in a very delicate condition.

"This little book was very comprehensively written, and told of the new method of extracting the medicinal elements of the cod's liver from the oil, eliminating the obnoxious oil which is so hard for children to take.

"'Just the thing,' said I, 'for my little daughter,' and I immediately went for a bottle of Vinol. It helped her wonderfully. She has gained rapidly in flesh and strength, and she does not take cold half so easily.

"I am extremely grateful for the good it has done her, and I hope other mothers who have weak, delicate or ailing children will be benefited by my experience and just give Vinol a trial."

VINOL is sold in Gainesville by W. M. Johnson, Druggist.

Death and Snuff.

A certain Margaret Wilson of Westminster, who was an invetcrate snuff taker, enjoined that a quantity of Scotch snuff should be placed in her coffin. She also ordered that the arrangements connected with her funeral should be as follows: "Six men to be my bearers who are known to be the greatest snuff takers in the parish of St. James, Westminster. Instead of mourning, each to wear a snuff colored beaver hat, which I desire may be bought for the purpose and given to them. Six maidens of my old acquaintance to bear my pall, each to carry a box filled with the best Scotch snuff, to take for their refreshment as they go along." Snuff was also to be thrown on the threshold of deceased's dwelling before the cortege passed out, snuff was to be strewn on the ground at every twenty yards in advance of the coffin, and the officiating clergyman's fee was to be proportionate to the quantity of snuff he consumed during the ceremony.—London Globe.

What the Peruvians Believed.

A unique idea of the future state was that of the ancient Peruvians. As the disembodied soul winged its way to eternity it encountered two rocks, upon one of which it must needs rest. The choice was determined by the morality of the life in the flesh. If it rested upon the left hand rock it was instantly translated to "Po," or oblivion, a state analogous to the Nirvana of the orient. If through early misdeeds, however, the unhappy spirit was guided to the right hand rock it entered into a purgatorial hell where fiends grated away the flesh from all the bones in succession, after which the skeleton was reclothed and sent back to earth for another try. There was no haste about this grating process. It took something over 10,000 years.

HIS ALIBI.

It Cleared the Accused, but Furnished an Odd Sequel.

A highly respectable gentleman arrived at York one evening with luggage and dined well, went to bed early, rose in good time and had a substantial breakfast. After this meal he casually asked the landlord if there was anything of special interest in York. "The assizes are on, but I do not know if there is anything particularly interesting in the list," was the response.

"Thanks," drawled the stranger. "I'll look in if I happen to pass the court and see."

He did look in and heard a follower of Dick Turpin in the dock, charged with highway robbery, pleading his innocence vehemently to a stolid judge and jury, who, with firm faces, did not look as if they placed much credence in the prisoner's profession of innocence. Suddenly the prisoner caught sight of the stranger, who had strolled in from the hotel out of curiosity.

"Here, thank God, is some one who can prove my innocence!" cried the prisoner, pointing to the stranger, who was aghast at becoming the center of interest so unexpectedly.

He seemed astonished and shook his head.

"Oh, yes," cried the accused; "just think! You were at Dover—a long way from here. You came out of the Ship hotel, and I took your luggage in a wheelbarrow to the Calais packet at the pier. That was the day I am supposed to have committed the crime up here."

The stranger seemed bewildered. The judge, struck with the tragic earnestness of the prisoner, questioned the stranger, but the latter could not assist him much.

"Have you any notebooks," asked the judge—"any memorandum of your movements on that day?"

"I am a merchant," replied the stranger, "connected with an old established firm of bankers in London. I travel a lot and of course enter everything in my books. Here are my keys if the court cares to send to my hotel and bring here the books out of my case. I can easily settle the point."

The books were fetched. The gentleman had been in Dover that day and had left by the Calais packet. This was sufficient for the judge and jury. The prisoner was acquitted.

Comic sequel: Both the "banker from London" and the highwayman were placed in the same dock shortly afterward charged with daring burglaries in the neighborhood.—Harry Furniss in London Standard.

Another proof, more evidence, Gainesville testimony to swell the long list of local people who endorse the old Quaker remedy, Doan's Kidney Pills. Read this convincing endorsement of that remarkable preparation:

Mrs. N. E. Carter, living at 108 W. McCormick street, Gainesville, Fla., says: "My son had been complaining of a weak back and pains across his kidneys' regions for some time. He would come home at night all tired out, and hardly able to eat anything. It was difficult for him to assume a comfortable position and he was miserable in every way. Finally he decided to give Doan's Kidney Pills a trial, and procured a box of them at J. S. Bodiford & Co's. drug store. It required but the use of one box to banish all signs of kidney trouble, and he has had no return of the complaint since."

The Usher Woke Up.

At a certain county court the judge is in his private capacity a kind hearted man. The usher of the court is aged—very aged—but as he had been a faithful servant for many years he was retained in that capacity. One morning he fell asleep in court and began to snore. The noise he made naturally disturbed court proceedings, but the judge displayed great tact in dealing with the matter.

"Usher Jones," he called out loudly, "some one is snoring."

The usher woke up. He jumped to his feet and glared ferociously round.

"Silence!" he roared. "There must be no snoring in court!"—Exchange.

The Pensacola newspapers are exempt from the enforcement of the Sunday blue laws in the Deep Water City, the Legislature having wisely amended the law some years ago so as to exempt publishers of Sunday newspapers from its provisions. There is not near so much work on the Sabbath in publishing the Sunday issue of a paper as there is on the Monday paper.

Sad indeed is it to note the gradual passing to their reward of the pioneers of Gainesville. A few more years and not one of them who made this city their home in the fifties will be left to relate the trials and hardships of the first few years they spent here. No town was ever inhabited by a better class of earlier settlers than Gainesville, every one of whom loved the town and its people as their own.

Sam E. Cobb, a brother of E. C. Cobb, has been elected secretary of the Railroad Commission. From what we know of Mr. Cobb a better selection could not have been made. He is a good clerical man and understands the clerical end of the railroad business, having been employed by different railroads for a number of years. He was also corporation clerk in the office of Secretary of State Crawford for a number of years.

The Tennessee Legislature has passed a law prohibiting the manufacture or sale of intoxicating liquors within four miles of a church or school house in that State. Now look out for some members of the Florida Legislature to introduce a similar bill at the session which convenes in April. Should such a measure pass both houses, however, Governor Gilchrist would veto it, and a two-thirds vote would be required to pass the law over his veto.

CURRENT COMMENT.

The Montgomery Advertiser says: "The Legislature all but passed a compulsory education law at the last session, but it could never screw its courage to the sticking point. The lawmakers were afraid of the man on the little farm in the hills who would continue to take his children away from school to work his crops when they needed working. It is safe to predict that compulsory education is no farther ahead of us than the next session of the Legislature."

The Philadelphia Record says: "Guglielmo Ferrero, the distinguished Italian scholar and historian, at a late club luncheon in New York, refused to discuss the corporative political corruption in ancient Rome and in America, for the reason that he only knew of Roman corruption. He did say, however, that the latter-day corruption is probably more dangerous, mainly because we are richer than the Romans were, and have a consequent larger basis of corrupt action. He declared the history of Rome should teach us that there is no true greatness based solely on material success. This is not the philosophy of the magnates. The magnates are not taking thought of what has been. They are looking ahead to the main chance, careless of consequences to others."

The Springfield (Mass.) Republican says: "The time ought never to come when a powerful Federal bureaucracy, with the seat of its power in Washington, would become insolent and arrogant in its pretensions to being the whole United States Government. Yet it is idle to disguise the fact that a bureaucracy of tremendous reach and influence has in late years been forming, as one of the natural results of rapidly increasing centralization. At bottom, there is an inherent antagonism between a great bureaucracy, intent simply on spending money and doing things, and the legislative body from which it must draw the means of its support; and if the American people will look sharply enough they will see the beginning of the conflict in the present situation at Washington. Perhaps the most vitally important heritage a free people enjoys is the absolute control of the purse by the parliamentary or Congressional body. For, in the last analysis, bureaucracy, however arrogant, must be helpless before it, provided that the people are alive to the maintenance of the different departments of government in their integrity."

Limited segregation, or a compromise between complete segregation and co-education, is to be tried in the public schools of Colorado Springs, Colo. The experiment is first to be conducted this spring in the high school. Beginning February 1, boys will be separated from the girls in recitation classes, as far as is practicable. The plan will be carried out slowly and results will be carefully noted. If satisfactory, the segregation will be more widely extended, and ultimately may be established in the grammar schools, beginning with the seventh and eighth grades. The decision of the school board to try this experiment was the result of opinions expressed at a general meeting of the 150 teachers of the district.

Former Congressman Benjamin F. Shively has been chosen by the Indiana Democrats to succeed James A. Hemenway in the United States Senate. Evidently the Hoosier Democrats considered that Hon. John W. The annual statement of State Treasurer W. V. Knott, as of January 1, 1909, shows total receipts for the general revenue fund during 1908 of $1,023,199.81, with disbursements of $775,093.62, leaving a balance in the fund on January 1, 1909, of $268,106.19. The report shows that the public debt consists solely of refunding bonds amounting to $601,567, bearing interest at the rate of three per cent per annum, all of which are held by the educational funds of the State.

GAINESVILLE,

—THE—

University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit a few of them in the following enumeration of what

..PROGRAM FLORIDA WINTER CHAUTAUQUA..

Gainesville, February 16-28, 1909

What the Forum was to ancient Rome the Chautauqua has become to the United States of America, with the difference that there was only one Forum while in America almost one-thousand Chautauquas are in active operation in all parts of the country, and the number is rapidly increasing as the years go by.

In other years people of the villages, hamlets and countryside could only read of great statesmen, orators and preachers, but they could rarely see or hear them without taking long pilgrimages. Now, by means of the Chautauqua the best and greatest talent in all the world is brought at insignificant cost to your very doors. The Chautauqua idea is one of the greatest moral and educational forces in the country. The inspiration received from it is a guide to the pathway and a lamp to the feet of thousands.

The great reforms which have recently swept over our country are largely traceable to the presence of the strong men who have spoken so fearlessly on the Chautauqua platform in the last dozen years, and the millions of people who have gathered at these annual meetings to listen to them have had their consciences so awakened that they have demanded that those in authority should institute these reforms.

The Chautauqua Movement is thoroughly undenominational, and here people of all creeds and parties commingle thoughtfully and lovingly. The Chautauqua is organized on high ground and has high aims. It appeals to the thoughtful and cultured, and seeks to displace some forms of amusement which are unworthy and fraught with danger.

More and more in these strenuous days people feel the need of a little vacation. Earnest people are hardly willing to waste time in a vacation which does not bring them a little intellectual uplift, hence the phenomenal growth of the Chautauqua idea. A Chautauqua is a benediction to any community in which it abides. It appeals in its varied program to both young and old, and is certain to cultivate high ideals of living and thought.

Under entirely new management the Chautauqua for the sixth annual session now appeals to the citizens of Gainesville for its support. The program is the strongest and best which has ever been offered, and includes in lectures and music and other features the very best which genius can devise or money procure. It offers at insignificant expense fourteen days of supreme enjoyment. The holders of season tickets get for a few pennies lectures and concerts which ordinarily would cost them not less than a dollar. Every right-minded citizen of the community should give to this enterprise, which stands for things which are high and lofty, their loyal support and co-operation. It offers fourteen days of supreme enjoyment and uplift. It will add to the fame of the good name of Gainesville, and will attract many visitors from abroad who will come for the sake of the Chautauqua.

The program of the present year is one of great strength and pleasing variety, and is so varied that all tastes are certain to be satisfied. A glance at the rich feast which is to be spread is given in the facts which follow:

LECTURES.

GOV. ROBERT B. GLENN of North Carolina. The most brilliant Southern orator since the time of Henry Grady. A man who has done things. Swept his native State for prohibition and won out in his fight for the two-cent rate against the railroad corporations. A large-hearted Christian gentleman who gives his influence to all great reforms and whose eloquent voice and sterling worth have won for him a national reputation.

MRS. LA SALLE CORBELL PICKETT, the gifted wife of the great General Pickett, whose charge at Gettysburg made him immortal. She tells in matchless fashion the story of the charge. She has achieved national reputation on the platform and is one of the most eagerly sought for Chautauqua lecturers in America.

ROSS CRANE, the famous cartoonist and clay modeler. He is simply incomparable in his artistic and novel work. It is the greatest, completest and most artistic one-man performance on the platform.

PROF. J. ERNEST WOODLAND, the well-known scientific lecturer, who brings with him the most expensive apparatus which completely crowds the platform. During his lectures on "Zero Absolute" and "Wireless Telegraphy," two of his famous themes, scores of brilliant and marvelous experiments are performed. For a number of years he has been the foremost Chautauqua lecturer in America.

DE WITT MILLER, for 20 years the most eagerly sought for Chautauqua lecturer the country has had. A man of infinite resources and wide information. He is not only a strong lecturer, but a witty one. It is not possible to secure a more popular man. His work will be greatly enjoyed.

WILLIAM STERLING BATTIS, the Dickens interpreter. He stands unrivalled in his line. Much of his work is done in costume and he brings you face to face with the well known characters which Charles Dickens in his stories has made so famous.

DR. S. R. BELK, a coming man of the platform. His lectures always catch and hold the crowds. While humorous and witty, there is still an under-current of good sound philosophy running through all his lectures. They are inspiring, helpful and optimistic.

DR. D. W. HOWELLS, now General Field Secretary of the Chautauqua Movement. A man of rare ability, who conducts Round Tables, giving all information concerning the Chautauqua Movement, and also gives delightful literary lectures, and will have a share as well in the Bible work.

WIRT LOWTHER, a lecturer who has the art of saying things in such fashion that people are entranced and carry away with them much that will brighten and bless the after-days.

DR. W. L. DAVIDSON, who, from the very beginning, has, to the satisfaction of all, arranged the splendid programs for Gainesville, will be present during the early days of the Chautauqua and will not only help in its proper starting, but will also present one or two of his very popular lectures, illustrated by stereopticon views.

MUSIC, READINGS AND NOVEL ENTERTAINMENTS.

ROBLEY MALE QUARTETTE. A company of delightful singers, who have won their way in all parts of the United States, and give unbounded satisfaction. Their repertoire is unlimited. Each member of the quartette is a fine soloist. They deal much in humor and Mr. Robley, the manager, is a very clever reader and impersonator.

ERNEST CAMBLE CONCERT PARTY will give two charming concerts. Mr. Gamble is easily America's foremost basso. Miss Verna Page is without a rival as a violin soloist. She has just come into the possession of a $7,000 Cremona violin. Mr. Sam Lamberson, the pianist and accompanist, has a national reputation. The artistic work of this superb combination cannot be excelled. We are fortunate in being able to offer such a treat to our patrons.

MISS LENA WALBRIDGE, a delightful whistler and reader. Her clever work will give pleasing variety to the program, and she will be heard frequently in connection with the concerts and as preludes to the lectures.

MR. WALLACE BRUCE AMSBURY, one of the best known readers, who is a whole show in himself, with an orchestra thrown in. He is one of the cleverest monologists on the platform, and is particularly pleasing in his French-Canadian dialect. His presence will be greatly enjoyed.

MRS. LOUISE MORGAN-AMSBURY, a lyric soprano with an exceptionally sweet voice. She has appeared with success at many Chautauquas.

GOSS-BARTELL COMPANY, including W. Robert Goss and Miss M. J. Bartell of New York City. They will be present for a week, and each evening will contribute at least a share of the program, furnishing preludes in connection with the lectures when they don't give an entire evening. They have with them one of the best and latest Moving Picture Machines, and have a score of the finest Pictures manufactured, many of them beautifully colored. Many stereopticon views will also be given, interpreting such well known creations as "The Sign of the Cross," "Parsifal" and "Hiawatha." There will also be secular and religious Illustrated songs presented by Miss Bartell. The strength of this delightful company cannot be overestimated. They appeared at a series of sixty Chautauquas last summer, and were said to be the crowning event of the entire season.

DEPARTMENT OF INSTRUCTION.

Definite educational work is not to be overlooked, and some of the morning hours will be given to those things which will contribute help to the thoughtful and the devout.

BIBLICAL HOUR.

This will be in charge of Dr. W. W. Davis, superintendent of the Chautauqua at Mountain Lake Park, Maryland. Great Bible themes will be discussed. At the morning hour the keynote will be struck for the day, and the Book of Books will be magnified in all the work of the Chautauqua. Dr. Davis will also have charge of the platform, and in his own good way will introduce the attractions from hour to hour and will give direction to the conduct of the Chautauqua.

SCHOOL OF HEALTH AND COOKING.

This has become a leading feature with all well ordered Chautauquas. For a week it will fill the morning hour. Two enthusiastic and capable workers have been employed to give direction to this line of work.

Dr. Carolyn Geisel, who stands without a rival in America, will give her helpful health talks to cover the first half hour of the work, and the second half hour will be occupied by Mrs. Minnie Emmons, who will present a series of cooking school lessons with demonstrations.

THE CHAUTAUQUA HOUR.

Conducted by Dr. D. W. Howells, General Field Secretary of the Chautauqua Movement, who travels from point to point in behalf of this great work. He is a superb talker, and will present varied and interesting themes in his own taking way. These themes will be outlined in the detailed program. All needed information concerning the Reading Course will be given, literature will be distributed, and opportunity will be offered for enrollment in the Chautauqua Literary and Scientific Circle.
